

Dream Equine Therapy Center

LOW COST Gelding Clinic Held by Dream Equine Therapy Center

DETC is teaming up with local veterinarians to stop unnecessary breeding and the surplus amount of unwanted horses. We realize the gelding procedure can be expensive and many owners simply cannot afford the surgery.

Our spring clinic will be held on Sunday Feb. 20, 2011. Location to be determined. There will be a 20 stallion limit.

Cost will be \$25 per stallion, no application fee. Applications and requirements are available on our website at www.dreamequinetherapycenter.org. Applicants will be approved on an individual basis, giving preference to low income households, stallions in with mares producing unwanted foals and other special circumstances. Any extra applications will be held for the fall clinic.

Please do not contact veterinarians directly concerning clinics. All questions and applications must go through DETC. Volunteers also needed for the clinics!

P. (803) 417-3285 F. (803) 980-8433

Located between York and Rock Hill, SC

Gelding Clinic Participant Application

All stallions must be in good health, halter broke, have both testicles descended and present negative coggins. Each stallion must have one competent handler and preferably one other person to help. Owners must provide own, safe transportation. Approved stallions will be given an arrival time. If not there within ½ hr, you forfeit the procedure and someone on standby will be notified. We will stop taking applications when we reach 50 applicants. Any extra not chosen, will be considered first for our next clinic.

The veterinarians on hand reserve the right to refuse to perform the procedure on any stallion not fit for surgery.

Applicant name: _____ Date _____

Address: _____ Phone _____

Email: _____

Household Income: _____ Proof of income attached: _____

(Include proof of low income by use of unemployment records, financial/bank statements, or letter explaining your situation and why you are in need)
